I have the same problem (i.e. the geant4 installation fails, with complaints about expat), but I have expat packages installed:
expat-2.0.1-11.el6_2.x86_64
compat-expat1-1.95.8-8.el6.x86_64
expat-2.0.1-11.el6_2.i686
(my OS is slc6). Do I need something else in addition to these?
