I believe the geomRootToGeant4 option is the faulty one:

```
----- EEEE ----- G4Exception-START ----- EEEE -----  
*** G4Exception : GeomSolids0002  
issued by : G4Polycone::G4Polycone()  
Cannot create a Polycone with no contiguous segments.  
Segments are not contiguous !  
rMin[3] = 45 -- rMax[4] = 31  
rMin[4] = 30 -- rMax[3] = 46  
*** Fatal Error In Argument *** core dump ***  
----- EEEE ----- G4Exception-END ----- EEEE -----
```
