Subject: Re: Vertex Fitter in Fast simulation Posted by Elisa Fioravanti on Tue, 01 Apr 2014 08:52:29 GMT View Forum Message <> Reply to Message

Hello,

if the vertex fitting is already covered in the fastsim macro, how can I extract in my macro the information about the vertexing? For example if I want to see the x,y,z vertex resolutions, what can I do in my macro?

Thanks in advance Elisa
