Subject: Re: Influence of the reduced B-field on the track reconstruction Posted by MartinJGaluska on Thu, 03 Apr 2014 15:06:29 GMT View Forum Message <> Reply to Message

Hello,

I am pretty sure that this is the case as it has to deal with a variable and inhomogeneous magnetic field in the Forward Tracker, but just to be sure I ask: Does the Kalman filter read the magnetic field from the field maps?

Kind regards, Martin
