Hi Michael,

thank you for your answer.

But, it doesn't seem to me that the correlation will be more distinguishable when we zoomed in to the area you pointed out. Anyway, I did what you said, and here is the result for the one that you interpreted as there might be the correlation:

zoomed in:

a little bit zoomed out:

Is this a sign of a something that is wrong? I'm keeping try to understand why they are not correlated.

Thanks for your help,  
tayfun
