Hi Liliana,

Thanks for your detailed and clear response!

I suspect these are the run files I'll need to use:

FRS_first_cal_point_0002.lmd
FRS_secon_cal_point_0003.lmd
FRS_third_cal_point_0004.lmd
FRS_third_calib_point_0005.lmd
FRS_forth_calib_point_0006.lmd

Plus all the info for making the LISE++ files can come from the 2 attached documents.

Thanks,
Scott
