Hi Liliana,

Thanks for your detailed and clear response!

I suspect these are the run files I'll need to use:

FRS\_first\_cal\_point\_0002.lmd  
FRS\_secon\_cal\_point\_0003.lmd  
FRS\_third\_cal\_point\_0004.lmd  
FRS\_third\_calib\_point\_0005.lmd  
FRS\_forth\_calib\_point\_0006.lmd

Plus all the info for making the LISE++ files can come from the 2 attached documents.

Thanks,  
Scott
