Subject: Re: pbar p cross section data Posted by Klaus Götzen on Sat, 30 Aug 2014 19:19:27 GMT View Forum Message <> Reply to Message

Dear Anastasia,

thanks! Partially I got electronic data from Alaa (the part which is in his publication), the rest I indeed put in by hand from ref [1]. Unfortunately it's not as complete as I'd liked to have it. If you need the data electronically you should either be able to copy it from the tool (this is the reason why I list it for each individual channel), or I can send it to you via e-mail.

Best, Klaus
