Hi Tobias,

I have initially ubuntu 12.04 and then replaced with 14.04. I have installed pandaroot successfully. Some times downloading of external package is very-much slow (almost stopped) then I do ctrl+c then i get something like svn: E200015: Caught signal (I do not know what is this). I do again (repeating) till I get fast downloading then it is compiled.

Thank you
Shyam
