Hi Tobias,
        I have intially ubuntu 12.04 and then replaced with 14.04. I have installed pandaroot successfully. Some times downloading of external pakage is very-much slow (almost stopped) then I do ctrl+c then i get something like svn: E200015: Caught signal (I do'not know what is this). I do again (repeating) till I get fast downloading then It is compiled.

Thank you
Shyam
