Dear All,

I am facing a problem in the use of TProfile I have plotted radiation length map by using TH2D and TProfile in TH2D  $X/X_0$  vs theta is going up to 1.5% of  $X_0$  but in TProfile It is going up to 0.7% of  $X_0$  however macro used is same. Is there some problem with TProfile? Plots are attached.

Thank You

Shyam
