Dear Elisabetta, taking a look into the CAMkelist.txt if genfit directory I have notice that there is some dependency to genfit2 and not genfit. what does it mean ?

see line 318:

```
MESSAGE(${library_sources})
MESSAGE(${GENFIT_SRCS})
add_library(genfit2 SHARED ${library_sources} ${GENFIT_SRCS})
target_link_libraries(genfit2 ${ROOT_LIBRARIES} -IEve)
set_target_properties(genfit2 PROPERTIES ${FAIRROOT_LIBRARY_PROPERTIES}
LINKER_LANGUAGE CXX)

#add_library(genfit SHARED ${GENFIT_SRCS})
#TARGET_LINK_LIBRARIES(genfit ${ROOT_LIBRARIES})
#set_target_properties(genfit PROPERTIES ${FAIRROOT_LIBRARY_PROPERTIES})
```
