Subject: Re: problems with external packages jul14p3@GSI
Posted by Florian Uhlig on Wed, 18 Feb 2015 15:29:01 GMT

Hi Klaus,

I can confirm your problem, but only on your machine. On other Squeeze machines the compilation doesn't show an error.
The real problem is at the beginning of errors

Quote:
/cvmfs/fairroot.gsi.de/fairsoft/jul14p3/include/boost/config.hpp:35:33: warning:
/cvmfs/fairroot.gsi.de/fairsoft/jul14p3/include/boost/config/compiler/gc c.hpp is shorter than expected
/cvmfs/fairroot.gsi.de/fairsoft/jul14p3/include/boost/config.hpp:44:31: warning:
/cvmfs/fairroot.gsi.de/fairsoft/jul14p3/include/boost/config/stdlib/libs tdcpp3.hpp is shorter than expected

For me it looks like there is a problem with the mount of cvmfs on your machine. I will discuss this issue tomorrow with our experts from the IT department.

Ciao

Florian
