Subject: PandaRoot Installation Posted by Dave on Sat, 31 Oct 2015 14:14:54 GMT View Forum Message <> Reply to Message

I have been trying to follow the PandaRoot installation guide and have a problem regarding the installation of the external packages of PandaRoot. I followed the instruction as per the webpage https://panda-wiki.gsi.de/foswiki/bin/view/Computing/PandaRootInstallGit ?validation_key=%253fc115c8c81fb2e2a7188fe38a913bbbfc. I attach the screenshot of the error message at the end of the faulty installation. Please help if anyone has any suggestion.
