Hi Bastian,

When compiling your branch "featureUcesb" against my installation of Ucesb, following errors occur:

R3BRoot/r3bsource/R3BUnpackReader.cxx:27:58: error: '_info' is a protected member of 'ext_data_struct_info'

R3BRoot/r3bsource/R3BUcesbSource.cxx:60:15: error: no member named 'last_error' in 'ext_data_clnt'

Could be problem of versions. Where can I download the Ucesb source code, which you have used for your developments?

Cheers,
Dima
