Dear Ralf,

sorry for my late answer, I have been today kind of busy.
Unfortunately, the software is not available online with the modifications.

I can send the macros, as soon as I have them copied from the cluster machine to my local
computer.
I will post again the the forum when I have time to do it. Up to now it was impossible for me
today, maybe later in the evening.
I just wanted to say I didn't forget about it

Thanks in advance.
Mamen
