Dear Ralf,

I have found out (with the help of Alicia), that I already have a development space (probably created during the last Computing Workshop in Turin). However, I have forgotten my password, and I can not commit the changes in the newly created directories...

I have sent an e-mail to the IT department at GSI, to ask them to reset my password, I think it should be the same as for the development branch (but I am also not 100% sure).

Apart of waiting, I am not sure weather I can do much more right now...

Let's hope for a fast answer from the GSI IT-people.

See you in Vienna!

Mamen
