Hi again!

It turns out that either I forgot my password at GSI or I don't know how to login...
Without login to the GSI machines, I cannot generate the file I have to send to Florian or Mohammed...

I phoned to the IT-Department at GSI, and they told me that somebody who is sitting there, should go and reset my password for me...
Radek, could you do it for me? (Your name appears in the GSI address book) I have to write an e-mail to the IT-people to tell who is gonna go and do it in my name.

But first, the way I login to GSI machines is the following?:

```
> ssh -Y moraespi@lx-pool.gsi.de
```

Maybe, I am doing this wrong and the password I remember is of course not accepted...

Thanks again in advance, and sorry for all the troubles!

Cheers,
Mamen
