This problem was solved in the latest FairSoft release. I recommend to use it. The most recent versions are:

FairSoft - "nov15p1" <https://github.com/FairRootGroup/FairSoft/releases/tag/nov15p1>

FairRoot - "v-15.11" <https://github.com/FairRootGroup/FairRoot/releases/tag/v-15.11>

And "dev" branch of R3BRoot. I have made multiple fixes to Geant4 part today, therefore run "git checkout dev; git pull"

Best regards,
Dima
