I can confirm the compilation failure for two items:

1) PndMdtlGeometry.h: the structs are private  
PndMdtParamDigi.h: the structs are private

Solved by making the structs public

2) PndRichRecoTask.cxx: #include <db\_cxx.h> not found  
Fixed in rev 28892

System: Fedora 23  
Compiler: gcc 5.3.1  
FairSoft: nov15  
FairRoot: 15.11a  
root: 5.34/34

The Log is attached.
