Subject: [FIXED] External package installation problem Posted by Dave on Thu, 25 Feb 2016 05:47:26 GMT View Forum Message <> Reply to Message

Hi, I have the following problem regarding the installation of external packages. It would be great to receive any kind of help and suggestions.

*** Package gtest is OK ***
*** Package gsl is OK ***
*** Compiling Boost
The patch boost_glibc.patch is already applied.
Building Boost.Build engine with toolset gcc...
Failed to build Boost.Build build engine
Consult 'bootstrap.log' for more details
scripts/install_boost.sh: line 67: ./b2: No such file or directory
**** Checking libraries in /home/debdeep/Desktop/Panda/fairsoft_mar15/buildFairSoft/lib ****
*** ERROR: Boost could not be created.
*** End installation of external packages with Errors***

Thanks and regards... Debdeep
