Hello Stefano,

after your e-mail, I updated pandaroot,
but I obtained at the compilation the same error (which I found before) in the file
PndMasterRunAna.cxx, connected with line:
> FairFileSource *fileSource = new FairFileSource(creator.GetSimFileName().data());

When I replaced this line into the line:

```
>FairFileSource *fileSource = new FairFileSource(new  
TString(creator.GetSimFileName().data()));
```

this error disappeared.

But after this, I have following error on the line

```
>SetSource(fileSource);
```

```
-----  
/nfs/hybrilit.jinr.ru/user/a/agaloyan/panda_Feb16/pandaroot/PndTools/mas  
ter/PndMasterRunAna.cxx: In member function 'Bool_t PndMasterRunAna::Setup()':  
/nfs/hybrilit.jinr.ru/user/a/agaloyan/panda_Feb16/pandaroot/PndTools/mas  
ter/PndMasterRunAna.cxx:57:23: error: 'SetSource' was not declared in this scope  
    SetSource(fileSource);  
      ^
```

```
make[2]: *** [PndTools/master/CMakeFiles/Master.dir/PndMasterRunAna.cxx.o] Error 1  
make[1]: *** [PndTools/master/CMakeFiles/Master.dir/all] Error 2  
make: *** [all] Error 2  
-----
```

When I committed out the line

```
>SetSource(fileSource);
```

compilation of pandaroot is o'k.

I don't now,
>SetSource(fileSource);
is needed or not?

Best regards,
Aida
