Subject: Re: problems in installing a pandaroot release (usual problems) Posted by Elisabetta Prencipe (2) on Tue, 12 Apr 2016 14:01:46 GMT View Forum Message <> Reply to Message

Hi again Stefano,

in the tutorial is written:

git checkout -b v-15.11 v-15.11

is the v-15.11 the current one? Maybe there is something to update in the tutorial? I say because in the message that I obtain is written:

- -- C++11 support found.
- -- Build CbmModule with Gdml support

-- C++11 support & boost libraries found. FairMQ will be built.

running /bin/chmod u+x

/home/prencipe/panda/fairsoft_mar15/FairRoot/build/examples/advanced/Tut orial8/macros/unpack_mbs.sh 2>&1

-- Found Git: /usr/bin/git (found version "1.8.3.1")
