Dear Geant4 users,

Geant4.7.1 has been installed at GSI.
For gcc295-04 at
/usr/local/pub/debian3.0/gcc295-04/sim/geant4.7.1
for gcc323-00 at
/usr/local/pub/debian3.0/gcc323-00/sim/geant4.7.1

initialisation is done according to $GSI_COMPILER_CC
with
". gsisimlogin dev"
The installed versions are now as follows:

echo " dev : geant4.7.1 debug"
echo " new : geant4.7.0 debug"
echo " prod : geant4.6.2 debug"
echo " old : geant4.6.1 debug"
echo " older versions by version tag, "
echo " e.g. g4.6.0: geant4.6.0"

Cheers,

Kilian
