Subject: Re: Day1 master macros Posted by Florian Uhlig on Mon, 28 Nov 2016 10:38:22 GMT View Forum Message <> Reply to Message

Hi,

something is wrong here. According to your settings you try to install Root5 whereas rootcling is a tool only compiled and installed if you use Root6.

Could you please check which version of root you use.

When you do

git log

you should see the last revision.

Ciao

Florian
