Hi again.

I compiled the FairSoft in a Debian 9 (testing) amd64, Kde desktop machine with gcc-6 and root version 6-08-02 and it works fine. The options I used:

```
compiler=gcc
debug=no
optimize=yes
geant4_download_install_data_automatic=yes
geant4_install_data_from_dir=no
build_root6=yes
build_python=yes
install_sim=yes
```

Thank you again!!

Jose
