Subject: Re: svn error when updating pandaroot on kronos Posted by Johannes Rauch on Mon, 20 Feb 2017 15:30:14 GMT View Forum Message <> Reply to Message

Hello,

I did not change anything in the genfit sourceforge repository recently, so I guess it is a problem of sourceforge.

On the other hand, the sourceforge version is not being updated anymore.

Since it is not straightforward to do an svn checkout from a git repository, its maybe a good idea to copy the latest version from github into the pandaroot repository.

Cheers, Johannes
