Subject: Re: FairSoft not compiling due to gfortran problems in mac OS
Posted by Dmytro Kresan on Tue, 25 Apr 2017 15:16:22 GMT

Hi Hector,

This issue was fixed in the mar17 release (hot fixes), but not yet in the master branch.
I was not able to reproduce your problem with the same tools versions.

Have you tried to download the tarball with mar17 from GitHub again and to do a fresh installation?

Best regards,
Dima
