I try to install FairSoft, however I had got error. I use Ubuntu 16.04. Terminal shows:

```
"The patch Makefile_millepede.patch is already applied.  
Using gcc version 4.8  
gcc -Wall -O3 \  
-o pede mpdef.o mpdalc.o mpmmod.o mpbits.o mpqldec.o mptest1.o mptest2.o mille.o  
mpnum.o mptest.o mphistab.o minresDataModule.o minresModule.o minresqlpDataModule.o  
minresqlpBlasModule.o minresqlpModule.o randoms.o vertpr.o linesrch.o Dbandmatrix.o  
pede.o readc.o -lgfortran -lm -lgomp -L= -lz  
/usr/bin/ld: cannot find -lgfortran  
collect2: error: ld returned 1 exit status  
Makefile:115: the command 'pede' failed
```

```
cp: cannot make stat on '/opt/fair_install/FairSoft/basics/MillepedeII/pede': There is no file or  
directory  
mkdir: cannot create directory „build”: File exists  
-- Configuring done  
-- Generating done  
-- Build files have been written to: /opt/fair_install/FairSoft/basics/MillepedeII/build  
[100%] Built target Mille  
Install the project...  
-- Install configuration: "Release"  
-- Up-to-date: /opt/fair_install/FairSoft/lib/libMille.so  
-- Up-to-date: /opt/fair_install/FairSoft/include/Mille.h  
*** ERROR: Millepede could not be created.  
*** End installation of external packages with Errors****"
```

I know that this subject exist, however it didn't solve my problem.
