Subject: Re: Event display in root6 Posted by JennyTaylor on Fri, 19 May 2017 12:03:04 GMT View Forum Message <> Reply to Message

Hi,

when I try it now it seems to work, I probably just made some mistake running it earlier and the FairMCTracks and FairMCPointDraw classes do not appear to be recognized correctly in Eclipse so I thought this might be the problem, however this probably just have to do with my settings.

Best, Jenny
