Subject: Migration to git
Posted by Tobias Stockmanns on Mon, 27 Nov 2017 10:19:17 GMT

Dear PandaDevelopers,

as announced, we are going to migrate to git.
I will start by deleting all existing PandaRoot test versions on our git-server including the personal ones of the users.
If you do not want this, you should contact me today.

The next stage is, that the official version of PandaRoot will move from SVN to git including the history wihtin the next days.

Cheers,

Tobias
