Dear PandaRooters,

I am happy to announce that the Panda repository is now available on git:
http://pandaatfair.githost.io
You need to have an account if you want to work on the repository. Contact me if you do not
have one.

If you want to develop new code for PandaRoot please follow the workflow set up by Anar for
FairRoot: https://github.com/AnarManafov/GitWorkflow/blob/master/GitWorkflow.markd own

A detailed description and the integration of the constanct integration tests will follow in the
next days.

Cheers,

Tobias
