Subject: Re: Building a minimal FairMQ service in Docker with static executables Posted by Mohammad Al-Turany on Sun, 16 Sep 2018 05:46:05 GMT View Forum Message <> Reply to Message

Hi Michael,

We have a completely different way of running with dockers, (one topology per container and not per process if I understand your post!). Please open an issue in https://github.com/FairRootGroup/FairMQ.

best,

Mohammad
