```
christiaan@christiaan-Z230:~$ which cmake
```

```
/usr/bin/cmake
```

```
christiaan@christiaan-Z230:~$ cmake --version
```

```
cmake version 3.10.2
```

CMake suite maintained and supported by Kitware (kitware.com/cmake).

```
christiaan@christiaan-Z230:~$
```

So you might be right. I need to change the default cmake to the one in the FairSoft Build.
