Yes, I did:

```
~/WORK/PandaRoot/fairsoft_may18/pandaroot_dec18/buildPanda$ ./config.sh
```

System during compilation: Ubuntu 17.10

x86_64

System now : Ubuntu 17.10

x86_64

Do I need to do it everytime?

My ROOTSYS is set to /home/anna/WORK/PandaRoot/fairsoft_may18/tools/root

Cheers,

Anna
