Subject: error in runing macro, run\_reco\_tb\_digi.C Posted by Rehman Towseef on Fri, 26 Jun 2020 09:55:51 GMT View Forum Message <> Reply to Message

[INFO] Branch: StsDigi not found in Tree.

root.exe: /home/towseef/CBMSoft/CBMsource/run/CbmBuildEventsSimple.cxx:193: virtual InitStatus CbmBuildEventsSimple::Init(): Assertion `fStsDigis' failed.

in comments of this micro it is said that, Run the macro run\_digi\_tb.C before to generate the input file .raw.root.

But this macro run\_digi\_tb.C is not there, moreover the file .raw.root is already generated.
