I tried to subscribe to the forum as a rss feed which is in principle offered, but doesn't work.
I got the following error, when I tried the the test link shown on the relevant page

Fatal error: SQL Error has occurred, please contact the administrator of the forum and have them review the forum's SQL query log in `*/var/www/FUDforum2/rdf.php*` on line `*63`

The page was:

http://forum.gsi.de/index.php?t=help_index§ion=boardusage#syndicate

My question: Is that not supported by you? Can it be switched on somehow?

It would be very useful to follow the forum discussions without having to open the pages in a browser and searching by hand.

Another thing: I tried to contact the administrator using the recommended email address:
admin@forum.gsi.de

I learned that this address does not exist
