Dear Geant4 users,

I am forced to remove more old G4 versions due to a serious lack of disk space.

I suggest to remove version  
/u/gsisim/simulation/geant4.5.2  
for the compiler version gcc295-04.

Is someone still using this G4-version in production ?

If I receive no complain I will delete this version on Monday, August 28, 2006.

Cheers,

Kilian
