Subject: Re: removing old G4 installations
Posted by Kilian Schwarz on Fri, 03 Nov 2006 08:30:15 GMT

Dear Geant4 users,

since there is still a lack of disk space in the /u - file system, would it be possible, to remove also the installed version
- g4.4.0.p02
- geant4.4.0.p02
- for compiler gcc295-04
- in /u/gsisim/simulation

in case I do not hear any complain until one week from now I assume that this version can be safely removed for good.

Cheers,

Kilian
