Hi,

Does anybody know why this simple line in aliroot does not work?

This is a part of AliTRDDigits2Raw.C

```
root [0] AliTRDcalibDB* calibration = AliTRDcalibDB::Instance();  
root [1] Int_t timeTotal = calibration->GetNumberOfTimeBins();
```

I-AliCDBManager::Init: AliEn classes enabled in Root. AliCDBGrid factory registered.

E-AliCDBManager::Get: Run number neither specified in query nor set in AliCDBManager! Use AliCDBManager::SetRun.

AliTRDcalibDB: Failed to get entry: TRD/Calib/Globals

regards,
