Hi adam,

just for information: This forum is NOT about Geant 4 (G4),  
but is dedicated to the GSI Object Oriented Online Offline (GO4)  
framework (see <http://go4.gsi.de> to find out what that is...).

So it might be better to put your request into the Geant4 Simulation forum, since there are  
more people which can possibly help you.

Best regards,

Joern Adamczewski
