Subject: Re: Technical Questions Posted by EDownie on Wed, 06 Jun 2007 11:57:16 GMT View Forum Message <> Reply to Message

Hi Stefano,

Neither I nor our sysadmin can get it to run on my Linux desktop (the error from before) and my windows laptop is unable to launch Koala. I'll try and seek out more local expertise and hopefully sort it out before the next meeting

Thanks for the suggestions!

Evie
