Hi Ralf,

as a first solution you could try simply:

```
map<Int_t, Int_t>::iterator it = (std::_Rb_tree_iterator<std::pair<const int, int> >) 0;
```

This should work.

I think it' s really an issue of different compilers, because I don' t see this error while compiling.
I will investigate this and fix it on the svn repository.

Best regards,
Lia.
