Subject: Contributions for Dubna Collaboration Meeting
Posted by Johan Messchendorp on Sun, 17 Jun 2007 10:36:09 GMT

Dear all,

The next Panda collaboration meeting is coming up soon. On Monday the 2nd of July, starting at 9:00 till - the latest - 13:00 (=lunch), a computing subgroup meeting will be organized. For this, I would like to ask you to come with input for presentations, discussions, etc.

Tentative topics to discuss are (to be confirmed!)

----
o 9:00-10:00 Status & perspectives concerning tracking (Sebastian/Christian, Oleg, Pablo, Ralf, ...)

o 10:00-10:30 EMC status and developments (Dima, Stefano, Ola's, ...)

o 11:00-11:30 Plans for an analysis framework, fast simulations, etc. (Soeren, Matthias, Klaus, ...)

o 11:30-12:00 Panda Grid status (Dan, ...)

o 12:00-13:00 Discussion on coding conventions, rules, etc (Johan, ...)

Anything else?

In our upcoming PandaRoot videoconference meeting on Wednesday, we can discuss the proposed program in more detail, so please be there!

Kind wishes,

Johan.
