Dear Geant4 users at GSI,

due to the still existing lack of disk space in the /u file system I would like to remove the old Geant4 version:

g4.5.1 geant4.5.1 gcc295-04 /u/gsisim/simulation

does someone still use this ?

In case I do not hear any opposite statement I will remove the installation after 1 week from now.

Cheers,

Kilian
