Hi Stefano

This is really a problem. For the GSI installation i will corect it. For your installation you should download the files from the
GEANT4 webpage (http://geant4.web.cern.ch/geant4/support/download.shtml)

To put the data files for GEANT4 to the tar file with the external
packages does not make sense in my opinion, because the data files
have a size of roughly 80MB.

Ciao

Florian
