Dear all,

We are planning to have a mini-workshop connected to the Panda collaboration meeting on Thursday and Friday the 20th and 21th of September. The location of the meeting will be the side room of the Auditorium at GSI. The actual timeslot will be announced later, once the program is defined.

The main topic of discussion will be on Particle ID. The workshop will be in the spirit of open discussions and introductory presentations. We are presently looking for input and contributions from those who are interested to participate in the workshop. For that, please contact me directly.

Kind wishes,

Johan.
