Subject: Re: URGENT: geane - coordinate system Posted by Sebastian Neubert on Thu, 27 Sep 2007 12:56:16 GMT View Forum Message <> Reply to Message

Furthermore I am a bit puzzled about TrackParP. Andrea you said this would be (q/p, v,w,v',w'). In the code Mohammad made a comment which says: (v,w,v',w',q/p)

Now what is right? How are the covariances ordered?

Cheers! Sebastian.
