Subject: Re: URGENT: geane - coordinate system Posted by Sebastian Neubert on Thu, 27 Sep 2007 15:38:00 GMT View Forum Message <> Reply to Message

Hi!

My question is only this: Are the coordinates of our geometry transformed in geane? Probably not. So why do we have to do the trafo at all? The only reason would be, that we want the SC angles to be meassured with respect to the beam, right?

Sebastian.
