Subject: Re: Something to look into for Panda PID? Posted by StefanoSpataro on Wed, 17 Oct 2007 21:11:47 GMT View Forum Message <> Reply to Message

In Victoria there was a talk about TMVA, and in HADES somebody is starting to use it for PID.

I have already started to take a look into the TMVA manual, we could use it but before we need a PID candidate, and before before (before^2) we need to have a well stated track as starting point.
